MDF & PLYWOOD

2026-2027

ABOUT US

Panel Hub Cambodia was founded with a vision to elevate Cambodia's interior decoration standards by bringing high quality, standardized, and safe wood panel materials to the market.

We believe great spaces begin with reliable materials that offer long term durability and value. Through close collaboration with our partners including interior firms, architects, retailers, and workshops, we support the creation of better interiors and contribute to raising the quality and professionalism of Cambodia's growing design and construction industry.

WE VALUE

QUALITY

We are committed to providing high quality wood panel materials that meet reliable standards for performance, safety, and durability.

VALUE

We focus on delivering lasting value by offering products that balance quality, functionality, and long term benefits for our partners and end users.

INTEGRITY

We focus on delivering lasting value by offering products that balance quality, functionality, and long term benefits for our partners and end users.

MDF (Medium-Density Fiberboard)

Our MDF is engineered for designers who demand a flawless finish. Made from high-quality wood fibers compressed with precision, it provides a perfectly flat and stable surface for high-end interior applications.

Plywood

Built for strength and longevity, our Plywood series uses cross-grained veneer layers to provide maximum load-bearing capacity and impact resistance.

Perfect Finish: Designed to look beautiful with any paint, laminate, or wood sticker you choose.

Consistent Quality: Every sheet is the same size and thickness, making your furniture fit perfectly.

Eco-Friendly: Smartly made from sustainable wood sources to protect our environment.

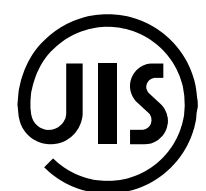

Safe for Home: Certified E1 Grade for low emissions, keeping your family safe and the air clean.

Why Choose Panel Hub Cambodia?

Extensive Design Flexibility

MDF & plywood in a wide spectrum of colors and textures.

Ready Stock Availability

Immediate supply to support fast project timelines.

Nationwide Distribution

Reliable delivery across Cambodia.

Internationally Certified Panels

Compliant with E1, E0, ENF standards.

Professional Consultation & Support

End-to-end guidance for seamless execution.
